

SYMMETRY ELECTRONICS QUALITY POLICY

We are committed to becoming an industry-leader in the distribution of electronic components - providing quality products and business solutions in the OEM manufacturing sector. As part of this commitment, we obligate ourselves to a quality management system in accordance with ISO9001:2015, and to perform within the statutory and regulatory guidelines of the factory authorized distribution industry.

Symmetry believes in taking the necessary action to meet and exceed the service and quality expectations of our customers. We recognize efforts to enhance Symmetry's quality performance as an ongoing journey of continuous improvement. Top Management is dedicated to ensuring objectives are aligned to attain the specified goals of the organization, as well its quality management system. Symmetry personnel demonstrate excellent customer service levels to reinforce positive interactions amongst interested parties.

This quality policy and associated objectives, as well as the effectiveness of the Quality Management System, are communicated and understood across the organization to promote company-wide competence.

All product and/or services supplied by external providers are controlled and monitored to sustain high levels of quality across Symmetry's supply chain.

Symmetry plans to continue managing its growth by identifying new opportunities, while maintaining its personal attention to all customers, suppliers, and interested parties alike.
